TEFL Org UK launches in the United States

TEFL Org UK is delighted to announce the launch of the company's courses in the United States, marking a new chapter in the company's growth as a leading provider of Teaching English as a Foreign Language courses worldwide.

Rebranded as TEFL Org, the launch includes the unveiling of a new, dedicated US website and a brand-new range of online and classroom courses tailored to American students.

The courses have been in development for over a year with a view to capitalising on increasing demand for US English teachers around the world and offering thousands of new customers the opportunity to teach English abroad.

TEFL Org's online courses are now available, with the first classroom courses taking place in Boston, New York and Los Angeles in January 2018.

Managing Director Jennifer MacKenzie said:

"China is our largest market and we're continually inundated with requests from students for teachers with American accents.

Many teaching job adverts will now ask for American English teachers so it seemed logical to expand our business into the US in order for us to be able to fulfil our students' needs.

Our US online courses are available now and are all entirely tailored to our American students. We are in the process of setting up in-person training courses for January and would welcome anyone who has a passion for teaching and wants to add another string to their bow."

TEFL Org UK's launch in the United States comes after several years as the UK's leading TEFL course provider and after other successful international ventures, such as the company's partnership with China's largest English-language newspaper China Daily to provide teaching and public speaking courses to Chinese nationals.

TEFL Org UK is the largest and most accredited Teaching English as a Foreign Language (TEFL) course provider in the UK – training thousands of people every year to have a life-enhancing experience teaching English abroad.
